

Building and Grounds Committee

Our B&G Committee manages the care and maintenance of our buildings and grounds to ensure full and productive use of all campuses and facilities. While providing support of all kinds, this ministry provides expert advice in the area of property management, maintenance, landscaping, and associated maintenance support services. This committee is chaired by an Elder and reports to Session.

Several times a year, the committee hosts “spruce up” workdays when people bring their talents for landscaping, gardening, pruning, cleaning and repairing to have fun and fellowship while sprucing up our buildings and grounds.

This is a wonderful way to serve our church “behind the scenes” while getting to know some pretty great people while doing it. If you have the skills and interest in helping, please contact Elder Randy Beckler.

Responsibilities include:

A/C system

Electric system

Landscaping

Pest/termite control
